

Following a Bachelor's degree in Physics at Zhengzhou University in June, 2013, I was offered a Ph.D degree under the supervision of Prof. Gang Qin in June, 2018, at National Space Science Center, Chinese Academy of Sciences.

In 2018, I accepted a pot-doctoral position at Institute of Space Science and Applied Technology in Harbin Institute of Technology, Shenzhen.

In 2022, I was offered a position as an assistant professor at State Key Laboratory of Lunar and Planetary Sciences, Macau University of Science and Technology. My research interests are theoretical or computational research and data analysis in space physics, especially in solar energetic particles and galactic cosmic ray, acceleration, transport processes in the heliosphere.
